DETAILED ACTION

1. According to paper filed on Nov. 12, 2004, the applicants have amended claims 1-5 and furthermore, have added new claims 6-11.
2. Claims 1-11 are now pending in the application.

Response to Arguments

3. Applicant's arguments filed on Nov. 12, 2004 have been fully considered but they are not persuasive regarding prior art rejection over Leonardi's reference. The applicants have also not amended claims 1, 3, 7 and 9 to delete non-elected subject matter (Ring A can not be pyridine in claims 1 and 7 as well as compound 44 in claims 3 and 9). The applicants have amended claims to overcome enablement and indefiniteness rejections. The examiner also agrees with the applicants arguments regarding benefit of priority document as well lack of anticipation by Hongu's reference. In regard to prior art rejection over Leonardi's reference, the examiner does not agree with the applicants arguments that the instant method claims are not anticipated by this reference. The utility of treating urinary incontinence using compounds (B), (D) and (E) is identical in the cited patent and the instant claims. It is of note that the mechanism is not critical if the intended utility of prior art compounds is identical to the instantly claimed utility.

NEW GROUNDS OF REJECTION

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1625

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 3 recites the limitation "Licofelone (compound 18)" in claim 1. There is insufficient antecedent basis for this limitation in the claim.

Claim 9 recites the limitation "Licofelone (compound 18)" in claim 7. There is insufficient antecedent basis for this limitation in the claim.

Conclusion

6. Rejection of claims 1-11 under 35 U.S.C. 102(a) over Leonardi's reference is maintained for the reasons of record.

7. Objection of claims 1, 3, 7 and 9 for containing non-elected subject matter is maintained for the reasons of record.

8. All rejections under 35 U.S.C. 112, first paragraph and second paragraph as well as prior art rejection over Hongu's reference are now withdrawn.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1625

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
